New Association Members

Hazel Harbor Condominium Association

Tam O'Shanter Townhome Association

Message from the Board

We would like to express our sincere appreciation to all associations and commercial members who have renewed their membership in ACTHA for 2020. We acknowledge your "vote of confidence" and we will not let you down!

So now that 2020 is well under way, it's time to refocus on our personal and community association vision for the future. Sure, new year's resolutions are popular, but we all know that concept is not usually long-lasting and most likely not related to community association living. Visual, or, if you will, *visional* acuity is defined as, "sharpness or keenness; the ability to see, hear or understand something easily". In other words, it is the quality and effectiveness of your ability to "see" the details as well as the big picture. Whether you are a homeowner, Board member, or commercial provider, these skills are essential to creating or maintaining the balance in satisfaction and successful coexistence of all homeowners in a community association. We have developed a **prescription** to sharpen your community association acuity.
